

19th International Symposium of Adapted Physical Activity

Martin Kudlacek

Dr. Martin Kudlacek received his Doctorate of Philosophy in Kinesiology with emphasis on Adapted Physical Activity at the Texas Woman's University under the supervision of Dr. Claudine Sherrill. His research interest focuses on the issues related to adapted physical education, the inclusion of students with physical disabilities, competencies of Adapted Physical Educators and conceptual issues related to the fields of adapted physical activity. From 2010 Martin serves as the president of European Federation of Adapted Physical Activity. He is founding member of editorial board of European Journal of Adapted Physical Activity and member of editorial board of Adapted Physical Activity Quarterly. Dr. Kudlacek was actively involved in EU project EIPET (European Inclusive Physical Education Training) and served as coordinator of project EUSAPA (European Standards in Adapted Physical Activities). Apart from teaching in Czech Republic he has been teacher in two EU based study programs EMMAPA (Erasmus Mundus in APA in Belgium) and EUDAPA (European Diploma in APA in Finland).

Assoc. Prof. Martin Kudlacek
